Karl Unterkircher im World Wide Web

The official website www.karlunterkircher.com has been totally redesigned and has been online since December 2007. It features with an expressive and fascinating page and ensures attention and interest

It is also the first contact to journalists, fans and curious one.

It is therefore a unique chance for sponsors to be present with a link to their own business web site.

Karl Unterkircher personally maintains his own BLOG page, where he periodically writes his news and future plans with regard to sport and personal events.

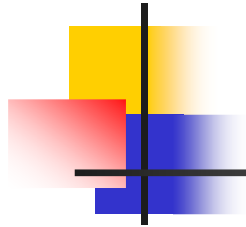

Of course he will communicate in a special way to his official sponsors.

Social employment „for Tibetan children“

Karl is developing this project and remains in contact with his sherpa and expedition chief, Tashi.
